Are those actually worth it? Serious question. I bought part down part feather willows recently. Never had an allergy to anything ok my life and had a feather pillow as a kid. Used to double bag it so I didn't get stabbed. My face broke out. I had to move them to a spare bedroom. Then my sister shows up for. thanksgiving. I asked her and the same happens to her. So now I guess I need new pillows again. I stay at Marriot some for work. Never broke out from theirs. Theirs are high as giraffe pussy to buy. Might be all down. They have some thick covers on too.

We bought ours to support the company. I absolutely HATE the pillow...way to thick and unforgiving. So now it's used if I want to sit up some in bed after getting good and stoned while watching the Salty Cracker Dragon Dick Energy Show before bed. Well that and to put between my knees if I happen to lay on my side. I think they would be GREAT for someone who slept on their side a lot. just my 3.030303030303e-5 worth. BTW..that's 2 cents divided by \$600.

It's fairly easy to get a USA assembled pillow. With all the cotton in west Texas I should be tripping over USA made pillows. We are probably shipping it to China to make blue jeans. I think I'm going to listen to some Toby Keith. That always cheers me up.

You can customize the pillow based on your size and sleep position.

People are running out of patience.

That sounds like a them problem. The only deadline we have is January 21st. Trump has one day short of a month to accomplish what he needs to do. People can hold out for 29 days. The world will not end in the interim. Anyone running out of patience just needs to unplug and go outside for a walk.

– [Gesirisi](#) 28 points 22 hours ago +31 / -3

I think our deadline is earlier than January 21st. January 20th is the first day in which we are absolutely fucked. So I'd say our deadline of not being absolutely fucked is more like the 10th.

Constitutionally Trump is President until Biden is sworn on the 20th. The election of 1876 was in the Democrat's court right until inauguration day. Then Republican Hayes got sworn in.

I understand people's worrying. I also understand people want this doubt to be lifted from their shoulders. However Trump isn't moving at the speed he is out of choice. If he could've ended this yesterday, he would've. He doesn't want to yank people around. He is moving exactly as fast as he needs to and there isn't anyone in his administration (that isn't swamp) that is worried. You ask anyone around him and not only are they saying they are confident of Trump's victory, but their actions are saying it too.

I agree. Every time I start to get discouraged, and lose patience, I think of how weak that is. I'm not even really doing anything of real consequence, it isn't costing me anything, and I'm tired. Trump and Flynn aren't tired. Then I chin up and continue to wait, as long as they say to.

Me too. It's hard not to get emotional about this (for me- mostly feelings of rage), but I think giving into those negative emotions is what the CCP/Deep State WANT from Trump supporters. They want us to feel demoralized. It's part of their plan. So if anything, my stubbornness keeps me from falling down the pit of misery completely because I do not want to fall victim to the narrative they have created for us.

It takes 79 days for the Constitutional process to finish. In that time, leftist agitators and organizations set to profit from a Biden administration will do everything in their power to demoralize, or worse, spur unprovoked violent action by retards who really have almost idea what is actually going on but think that because they are on thedonald.win, they know everything about the inner workings of the leader of the free world.

Hasn't he already done it? He's exposed the corruption of the deep state to an extent that no one has done so before. He's awakened the masses. Before Trump, it seemed that only a handful of people were aware of conspiracies and secret agendas being perpetrated by the ones with power. Now it seems like everyone and their mother are aware of them and even believe them to be true. A lot more needs to be done to improve this life, but I think we're headed toward a better future and Trump deserves a lot of credit for that.

I agree. We now see how deep the deep state really is. To be honest Alex Jones, Robert Welch, William Cooper and many others have been talking about this for decades.

Our enemies have unlimited wealth, coming from very wealthy banking families having large trusts and hidden assets all over the world. Their control of the media and education allows them to promulgate their evil ideas of one world communist government without any opposing viewpoint. Those families have been manipulating world events for centuries.

To defeat them you need help from God, you need resources and you need a ruthless determination to see justice done. Trump will have to start purging the deep state traitors within his own inner circle, if he is to ever succeed at this monumental task.

Right now it's about showing the world that those whom appear to be in the majority, thanks to fake news and social media echo chambers, are actually just a tiny minority. There's a tipping point at which we can move forward with far less resistance and with much more public and international support (not that we need the latter, of course, but it helps in maintaining peace). As pissed as we are, if we can avoid a bloodbath in taking our country back, we absolutely should.

See you on the 6th.

We do have a written process that POTUS is following; and indeed the institutions are corrupt. But when everything is said and done, President Trump will be in the right side of history. After all legal and Constitutional paths are exhausted without success ( due to corruption) whatever measurements he takes to save the Republic will be lauded in history.

Many of us took an oath to protect and defend that document and what it stands for. We're more than prepared to use violence to achieve that protection, and if we die in the process of defending it, so fucking what?

GEOTUS is CinC at this time, and is rightfully so by law and by convention. He has done nothing to dis-earn that title and office. Therefore, until/unless GEOTUS says to get violent, or unless it becomes obvious that he is under duress and unable to make that call?

We wait.

*Capiche?*

You think you're the only one who served in the military? Lol. The document is clearly meaningless. We've replaced the population with foreigners who don't give a shit about what white people have to say. We must do whatever it takes to win. Not only for our sake, but for the sake our of our ancestors and posterity.

TBH, I've pretty much accepted the fact that we got outplayed and outmaneuvered at every turn. If Trump manages to win this, it'll be a pleasant surprise for me, but I'm not expecting it.

This is what they mean by hold the line. The Dems/globalists/commies/China are all going to do as much as possible to anger and incense you. Or break you. They want you either seeing red, or wallowing in the dark. If you move on your own, you will only hurt POTUS.

Don't let the enemy manipulate you.
